

Subiaco Primary School BYOD Year 4 2024

Device Requirements

For students to engage fully in the 1:1 iPad classroom we recommend an iPad that:

Is 9th generation minimum to last from year 4-6

Must have iOS17.1 installed (minimum).

Ideally have at least 64gb of data storage.

The iPad must come to school with a protective case.

We prefer an external keyboard – takes up screen space

Headphones are required (plus adaptor).

A Targus slim stylus is a recommended extra.

It's not one-size-fits-all

What works for you and your family today
may not work as well tomorrow; and what
works for one child may not work for another

School Support

Each class has been equipped to store devices overnight.

Families can opt in and inform the school if they want the device leaving at school or sending home at the weekend.

You will need to provide a labelled charging cable.

We are here to support you

Apps List for 2024

It is essential that the children have all apps, as specified on the app list, already installed on their device.

Having these apps installed on your child's device will enable them to use their iPad effectively for learning at school.

To download the apps please go the Apple App Store. We recommend that you purchase an App store card this will enable you to purchase any required paid apps. Most of our school apps are free, however; there are a few paid apps.

All apps we are requiring are tried and tested with an emphasis on educational purpose and creativity.

Some apps come already installed on iPads, some are free to download, and some are paid apps. The apps on our lists are our core apps for 2024, however; additional apps may be added to the list throughout the year.

YEAR 4 APP LIST 2024

Apple Apps

Free with new iPads. All Apple apps listed here are preinstalled on new iPads or available to download free for anyone who activated an iOS device for the first time. Please note you may incur a charge to install these apps on older devices.
