

SCHOOL CHAPLAINCY PROGRAM

Chaplaincy programs in Australian schools aim to assist school communities, through the provision of help and care, to support the personal and social wellbeing of students and the school community.

The role of the School Chaplain includes:

- Providing students, their families and staff with support and or appropriate referrals, in difficult situations such as during times of grief or when students are facing personal or emotional challenges.
- Supporting students and staff to create an environment which promotes the physical, emotional, social and intellectual development and wellbeing of the school community.
- Supporting students and staff to create an environment of cooperation and mutual respect, promoting an understanding of diversity and the range of cultures and their related traditions.
- Being approachable to all students, staff and members of the school community.
- Supporting students, their families and staff of all beliefs, and not seeking to impose any beliefs or persuade an individual toward a particular set of beliefs.

School Chaplains provide support for a range of day to day matters affecting the school community, and communicate effectively with a diverse group of people. The Chaplain can become involved in a wide variety of issues including health, social and values education, and emotional support.
