

## Cyber Safety

Cyber Safety practices are a high priority at Subiaco Primary School and appropriate duty of care is extended to all our digital environments. Students and parents also have a responsibility in this area to minimise risk or exposure to unsuitable material. Any misuse of digital technology or online tools will be handled in line with relevant Department of Education Policies and the Subiaco Primary School's Positive Student Behaviour Support Policy.

## Help and Advice

If you have any questions, contact:

[peter.hayward@education.wa.edu.au](mailto:peter.hayward@education.wa.edu.au)

or email the school at

[subiaco.ps@education.wa.edu.au](mailto:subiaco.ps@education.wa.edu.au)

Further Information can be  
found on our website

[www.subiacops.wa.edu.au](http://www.subiacops.wa.edu.au)

The Beacon App is an invaluable resource for families to get practical advice and support managing technology at home.

1-1 iPad  
Information

## Welcome to Subiaco Primary School's BYOD Program

For over 10 years our school has successfully integrated the use of the Apple iPad into our teaching and learning programs for year 4 – 6.

Chosen for its robust platform, reliable operating system and manageable parental controls, purposeful use of the iPad empowers students to demonstrate their learning and understanding of concepts in a variety of ways that support the diverse needs of our student population.

## Device Requirements

For students to engage fully in the 1:1 iPad classroom we recommend an iPad that:

Is 10th generation minimum to last from year 4-6

Must have iOS17.1 installed (minimum).

Ideally have at least 64gb of data storage.

The iPad must come to school with a protective case.

We prefer that the students have access to an external keyboard

Headphones are required (plus adaptor).

## Apps

The list of core Apps to be downloaded onto the iPad at home are listed on our website:

<http://subiacops.wa.edu.au/1-1-ipad/>

and on Compass:

<https://subiacopswa.compass.education/Communicate/SchoolDocumentation>

## School Support

Each class has been equipped to store devices overnight.

Families can opt in and inform the school if they want the device leaving at school or sending home at the weekend.

If you choose to leave your device at school we will need a labelled charging cable.

## Digital User Agreement

All students and parents/guardians must acknowledge a Digital User Agreement to allow their child to access digital technologies, media tools and digital learning environments established or accessed by Subiaco Primary School.
